Never just drive.

Balancing relentless racetrack performance with comfort-oriented daily commuting, the all-new IONIQ 6 N is a high-performance electric sports sedan for every day – built to make every moment behind the wheel a chance to elevate the joy of driving.

With IONIQ 6 N, Hyundai is once again disrupting the EV segment by demonstrating just how unbelievably fun it can be to drive a high-performance electric car.

Designed for performance.

The motorsport-inspired exterior design elements were sculpted to make a powerful statement – but at the same time they were engineered to enhance the performance of this powerfully agile masterpiece of driving fun. They all have a job to do. IONIQ 6 N's sophisticated aerodynamics strike a balance between efficiency and high-speed stability.

Together with the race car presence of the High Performance rear wing, the rear diffuser and wing-inspired shapes of the glossy black N bumper make a bold, sporty statement.

Inspired by the RN22e concept, the wing-type air curtains on both sides of the front bumper highlight the N high-performance identity while enhancing aerodynamic performance.

**Smile.
This is going to be good.**

Go ahead and let it off the leash.

Supercharge your daily drives and weekends on the track with next-level performance. IONIQ 6 N is amping up N performance in an electrifying new way.

Rediscover the thrill of driving.

With a top speed of 160 mph and the ability to go from 0-62 mph in 3.2 seconds — this high-performance electric vehicle has been created so that you can push your inner race car driver even further.

Dream of drifting?

Calibrated to offer intuitive drifting behaviour, the N Drift Optimizer offers a range of drift parameter settings that you can customise via the centre touchscreen to your own drifting style. You can adjust Initiation, Angle and Wheel Spin. Enjoy intuitive drift control via optimised front/rear torque distribution. Operates in sync with N e-Shift.

Track driving excellence.

Everyday sportscar.

High-tech motorsport inspired cockpit.

The performance cockpit is designed with one goal in mind – to make every drive an exhilarating experience. The leather N steering wheel provides excellent grip and direct access to driving performance features like the paddle shifters and the N Grin Boost button.

Press it to enjoy increased torque and power up to 478 kW / 650 PS. The sporty pedals are optimized for foot contact in track driving scenarios that involve oversteer and power slide – reducing the risk of foot slippage in two-foot driving.

Customise your performance and comfort levels.

More performance or more comfort? You choose. Truly a sports car for every day, IONIQ 6 N provides blistering, heart-pounding, edge-of-your-seats performance – complemented by balanced day-to-day commuting comfort – at the push of a button. The Electronic Controlled

Suspension (ECS) lets you adjust the stiffness of the suspension set up according to the Drive Mode you select: N/Sport/Normal. Enjoy enhanced wheel damping and suspension to instantly feel a more agile and immediate response.

Sporty style meets exquisite comfort.

Roomy and comfortable.

The roomy dome-shaped cabin provides comfortable seating for five adults and is equipped with a wealth of thoughtful innovations to make life easier. The boot provides 371 litres of luggage space (VDA).

Bucket Seats.

Welcome to the best seats in the house. Seen here in a luxurious recycled poly Alcantara and Leather finish, they feature illuminated N logos that light up to welcome you when you open the door.

Convenience highlights.

High-speed wireless charger pad.

USB C front and rear.

Hyundai AI Assistant.

The beauty of big screens and seamless integration.

Seamlessly integrated and intuitively usable, the sleek modular dashboard features two integrated displays: a 12.3" infotainment touch screen and a 12.3" digital cluster for a high-tech look that also provides performance driving information at a glance.

Thanks to wireless Apple CarPlay™ and Android Auto™, you can mirror your smartphone apps and music on the big screen, without having to plug in. And with Over The Air vehicle software updates you benefit from continuous performance updates and new features.

Use your smartphone or Apple Watch to lock, unlock and start IONIQ 6 N.

Now you can leave your car key at home – because Hyundai Digital Key 2 is part of our innovative Bluelink Connected Car Services.

For more convenience, IONIQ 6 N can be locked, unlocked, and started via smartphones or Apple Watch. You can also easily share Hyundai Digital Key 2 with up to 15 additional smartphones, allowing your family and friends to enjoy access to the vehicle after saving it in their phone's wallet. When sharing your key, you can even customize the level of access each person receives, ensuring full control and peace of mind.⁺

Control in the palm of your hand.

With the new myHyundai App – your IONIQ 6 N is always with you. Enjoy more peace-of-mind and control from the palm of your hand and IONIQ 6 N's infotainment display with online voice recognition powered by Bluelink Connected Car Services.[◊]

- B[◊] Take advantage of the EV Route Planner and Live Services to plan each journey easily.
- B[◊] Enjoy music streaming, weather updates and calendar functions - directly from your in-car infotainment screen.
- B[◊] Enter the Bluelink Store to choose from various Digital Features & Services.

The Bluelink Store offers PRO and PLUS subscription levels, each with different functionality to suit your needs. You can also upgrade your IONIQ 6 N at the Bluelink Store with new Digital Features & Services, such as Digital Themes to change the look & feel of your infotainment screen.⁺⁺

Hyundai SmartSense

Hyundai SmartSense

Forward Collision-Avoidance Assist with Junction Turning (FCA-JT).

Sensing the road with radar and a camera, the system automatically brakes when it detects sudden braking by the car ahead, or pedestrians and bikes on the road. ^{◊◊}

Blind Spot Collision-Avoidance Assist (BCA).

Delivering more safety in dense traffic, BCA will warn you and automatically apply the left or right brakes and control the steering when a vehicle is detected in your blind spot and you begin to change lanes. ^{◊◊}

Highway Driving Assist II (HDA2).

Hyundai's autonomous driving technology enables your car to steer, accelerate and brake automatically. It keeps you centred in lane and at a safe distance behind the car ahead. ^{◊◊}
